This report was developed by the WASC Accreditation Steering Committee. The committee of administrators, faculty, staff, a postdoctoral scholar and a student leader made significant intellectual contributions to the report. The group’s continued strong commitment to strengthening UCSF’s educational mission is evident throughout the report.

The report also benefited greatly from excellent staff support. Special appreciation is accorded to Maria Blandizzi, Christopher Cullander and Veronica Nepveu from the Office of the Vice Provost of Student Academic Affairs and Valery Richardson for their valuable assistance.
